

TOOLS

Position

Your mobile phone has a GPS unit (Global Positioning System) to support the emergency function. This feature allows to locate the mobile phone worldwide, and to determine your exact location.

Note: The enabled position determination requires a lot of electricity, thereby reducing the operating time of mobile phone in continuous operation to 36 hours.

Note: The GPS functionality is inside buildings can not be guaranteed. If after a few minutes, you still have no position, check if you have a direct view to the sky (satellites), and/or go away from high walls of buildings.

Note: Rescue organizations will receive the positioning GPS coordinates. Recipients will receive a private google maps link.

Note: If your device is not able to receive a GPS signal, the last saved position will be automatically sent with an appropriate notice.

■ **Enable/Disable positioning:** enter menu **Tools** ⇒ enter **Position** with **OK** ⇒ **Position on/off**

■ **Share your position with friends:**

Selected contacts have the opportunity to your current position interrogate another mobile phone.

These contacts are defined in your **Friends list**.

Do not worry: numbers that are not on this list can not determine your position.

Go to **Tools** ⇒ **Position** ⇒ **Show friend list** to see which of your contacts is it allowed to check your position.

Note: To enter, delete or edit the Friends list please contact your service provider.

Bluetooth

■ **Enable/Disable Bluetooth:** enter menu **Tools** ⇒ enter **Bluetooth** with **OK** ⇒ **Bluetooth on/off**

■ **Pairing devices:** enter menu **Tools** ⇒

enter **Bluetooth** with **OK** ⇒ **Connections** **OK** ⇒

Search for new devices **OK** to search for available devices ⇒ choose the desired device ⇒ confirm with **OK**.

Paired devices are automatically recognized the next time, if they are in range.

Alarm

Press **OK** in standby mode ⇒

■ **New time:** enable alarm clock ⇒ enter time ⇒ confirm with **OK**.

The alarm clock rings every day at this time.

■ **Off:** disable alarm clock

Press **OK** to stop a ringing alarm.

Mute an ringing alarm by pressing **OK** (rings again in a minute).

FREQUENTLY ASKED QUESTIONS

The mobile phone is not responding:

Remove battery, re-insert and switch on the device.

If still no response, please contact the Service Center.

The charging process will not start:

It may take a few minutes. If no response after 10 minutes, please contact the Service Center.

EMPORIA EMERGENCY BUTTON

You can store up to 5 emergency numbers (family, neighbours, friends, emergency services).

■ In case of an emergency press the emergency button on the reverse side of the mobile telephone either for 3 seconds or 3 times within 3 seconds. The emergency key will still work when the key lock is enabled.

By pressing the emergency button the emergency sequence is started. Up to 5 numbers will be called in a predetermined order until someone answers the emergency call.

This process is repeated 3 times.

■ If no emergency number is defined, your prepaid-card is out of charge or you are outside of the home network of your network operator, the international emergency number 112 will be called.

■ During the emergency sequence a warning tone is played back, to inform the people around you about the emergency.

PleaseNote: By answering the emergency call, the called person have to dial the **0 3 times, during the first minute of the call. (Dialing the 3x **0** by the receiver of the call ensures that your emergency call is not forwarded to an answering machine or voicemail).**

Parallel to the emergency calls in the background, your position is determined. If this information is available, a text message will be sent to all emergency numbers, including your current location or address (Google-Maps-Link). Through the use of network services (emergency SMS) may incur charges.

Saving emergency numbers:

Go to **Phone book** ⇒ **Emergency numbers** ⇒

Add Emerg. No ⇒ choose **EmNo.** (1-5) ⇒ specify whether it is a **Private number** or a **Helporganisation** ⇒

choose a contact in **Phone book** ⇒ finished

PleaseNote: If you choose Private number the receiver have to dial 3x **0. By a Helporganisation, a recall is not required.**

Enable the emergency button:

Go to **Phone book** ⇒ **Emergency numbers** ⇒

Emergency button ⇒ **On/Off**

DISPOSAL

Disposal of packaging:

Packaging and packaging materials are recyclable and should always be returned.

Disposal of batteries:

Batteries must not be disposed of with domestic rubbish!

As a consumer you are required by law to recycle used batteries.

You may return them to your local collection point or to the dealer.

Disposal of the device:

Do not throw your mobile phone into the garbage, once it has outlived its usefulness. For the benefit of the environment, take it to a recycling location for used phones so it can be processed in an environmentally responsible way.

TECHNICAL PRODUCT DESCRIPTION

- Dualband GSM 900/1800MHz
- Battery: Li-Ion 3.7V / 1750mAh
- Internal antenna: SAR 0.799 W/kg
- Stand-by-time: 400 h (Applications, such as Bluetooth or GPS reduce the operating time up to 80%.)
- Dimensions: 120x60x20 mm
- Weight: 142 g

PACKAGE CONTENT

- Mobil phone
- Charging cable
- Battery: Li-Ion 3.7V / 1750mAh

CORRECT USAGE

- This mobile phone is rugged and provided in accordance with IP67 for mobile use.
- Do not expose it to direct sunlight.
- Any utilization other than described above will cause damage to the device, and may be hazardous (electric shock, fire, etc.). The entire product must not be altered or rebuilt, and the housing must not be opened.
- The power plug is suitable only for use with residential-type outlets of the public mains with 230 Volt/ 50 Hz (10/16A) alternating current.

SAFETY INSTRUCTIONS

- Switch off the mobile phone in hospitals or in the vicinity of medical equipment, as the mobile phone may cause them to malfunction. Keep your mobile phone a minimum distance of 20 cm away from pacemakers, if it is turned on.
- Never drive a car while holding the mobile phone in your hand. Observe national law and traffic regulations governing the use of mobile phones in traffic.
- Always turn off your mobile phone inside an airplane.
- You must switch off the mobile phone in the vicinity of petrol stations and other places with explosive materials.
- Don't shine the light directly into the eyes of people or animals.
- If the speaker or headset is set to a high volume this can cause hearing damage. Never hold the phone to your ear when the speakerphone mode is activated or the emergency button is pressed.
- The device and its accessories may contain small parts. Keep this product out of reach of small children.
- As a precaution, we recommend disconnecting the charger from the phone during a thunderstorm.
